

Cathie Berrey Green

Photographer/ BG Productions

My Story:

I have always loved taking photographs. I got my first nice film camera as a present when I graduated from High School, and I have been taking photos ever since! In 2007 my husband and I got married and shortly after started **BG Productions Photography and Videography**. We specialize in wedding and lifestyle/portrait photos and video.

A little about us: We are a little bit of rock-n-roll mixed in with with old school hip hop with a dose of 80's music thrown in! We are huge fans of Steampunk, Dr. Who, the world of comics, and rescuing animals.

We have 6 rescue cats and a rescue Boxer/ Bulldog named Bella! And we Love capturing people and their pets- or just their beloved pets by themselves! We feel it is so important to have good pictures of your pets so you can always cherish them.

We would love to talk to you about capturing your furry friends. We can come to your home or a location of your choice!!

My Art for Unity Animals

On Display at Unity for Art is a variety of photographs I have taken of various pets., including of course our lovable Bella!

You can have your dog be a part of your wedding or engagement session- how fun is that!! Or schedule a family session and bring your pet along. And if you are camera shy we can focus just on your pet!

As you can see a variety of display options are available as well and can be as big as you want.

Why I Am for Unity Animals

Animal rescue is Very important to us individually and we have made it a huge part of BG Productions Photography and Videography. 10% of all session and collection fees will be donated to Unity Animals for animal rescue and retention. This includes any wedding packages as well!
