

Martha Perkins

Pet Portraiture - Acrylic on Canvas

Though I have been passionate about creating art my whole life, my studies began at Mount St. Mary's University where I graduated with a BA in Fine Arts. Soon after my life took a turn towards raising a family and being a stay at home mom all the while finding ways to feed my creative juices. From designing and building decks, arbors and fences to quilting and making bags from vintage ties, to jewelry making, pottery and painting. I've had my hand in every cookie jar.

My latest artistic venture is creating painted pet portraits from photos and I couldn't love it more. Clients supply photos and I create an original portrait of their beloved pet with acrylic paint on canvas. It is real love affair for me. What better way to feed my creativity than to sit at my easel looking at the sweetest of photos of the most loved and darling pets. I am so very lucky!

Why I am for Unity Animals

I am grateful for the opportunity to donate 10% of my pet portrait sales to Unity Animal Hospital. In doing so, I am helping to support their mission to provide affordable pet health care, community education and support to rescue organizations.
